6. (Currently amended) A medicament blister pack label ~~as claimed in any preceding claim~~ according to claim 1 wherein the first and second sheets are bonded by means of a second permanent adhesive.

7. (Currently amended) A medicament blister pack label ~~as claimed in any preceding claim~~ according to claim 1 wherein the lines of weakness defining medicament release zones comprise perforations or slits.

8. (Currently amended) A medicament blister pack label ~~as claimed in~~ according to claim 7 wherein the lines of weakness penetrate ~~the~~ a full thickness of the label.

9. (Currently amended) A medicament blister pack label ~~as claimed in any preceding claim~~ according to claim 1 wherein the label ~~further~~ comprises a release sheet opposing the first face of the first sheet.

10. (Original) A medicament blister pack label ~~as claimed in Claim~~ according to claim 9 wherein the release sheet comprises a sheet material having a silicone coating.

11. (Currently amended) A medicament blister pack label ~~as claimed in any preceding claim~~ according to claim 1 wherein the first sheet is made of a material selected from the group consisting of: a synthetic material, ~~more preferably~~ a polymeric material and a plastic or plastics sheet material.

12. (Currently amended) A medicament blister pack label ~~as claimed in Claim according to claim 11~~ wherein the first sheet is made of a material selected from the group consisting of: polyethylene, ~~or polypropylene sheet, preferably a~~ and bi-directional polypropylene ~~sheet material.~~

13. (Currently amended) A medicament blister pack label ~~as claimed in any preceding claim~~ according to claim 1 wherein the first sheet has a weight selected from the group consisting of: ~~from 15 to 100 g/m²; preferably from 20 to 50 g/m²; more preferably~~ and about 30 g/m².

14. (Currently amended) A medicament blister pack label ~~as claimed in any preceding claim~~ according to claim 1 wherein the first sheet has a thickness selected from the group consisting of: ~~from 15 to 120µm; preferably from 20 to 60µm; more preferably~~ and about 30µm.

15. (Currently amended) A medicament blister pack label ~~as claimed in any preceding claim~~ according to claim 1 wherein the second sheet comprises a printable material.

16. (Currently amended) A medicament blister pack label ~~as claimed in~~ according to claim 15 wherein the second sheet is a paper material.

17. (Currently amended) A medicament blister pack label ~~as claimed in any preceding claim according to claim 1~~ wherein second sheet has a weight selected from the group consisting of: 50g/m² or more, preferably from 50 to 400g/m², more preferably from 60 to 200g/m², most preferably from and 70 to 150g/m².

18. (Currently amended) A medicament blister pack label ~~as claimed in Claim according to claim 17~~ wherein second sheet has a weight selected from the group consisting of: from 80 to 120g/m², preferably and about 85g/m².

19. (Currently amended) A medicament blister pack label ~~as claimed in any preceding claim according to claim 1~~ wherein the second sheet has a thickness selected from the group consisting of: from 50 to 400μm, preferably from 50 to 150μm; more preferably from and 60 to 100μm.

20. (Currently amended) A medicament blister pack comprising:

a ~~moulded~~ molded plastics tray including a plurality of ~~moulded~~ molded cavities or recesses, wherein each of said plurality of molded cavities or recesses containing contains a medicament, said medicament being held in place by ~~means of a foil retaining sheet; and, further comprising~~

a label as claimed in ~~any one of claims 1-19~~ claim 1.
